

March 30, 2009

To: Kunal Merchant
Chief of staff, City of Sacramento, CA

Hello, Kunal Merchant, I am writing this email to you in order to partner with you, Sacramento City, Sacramento County, and the State of California, in regard to, Funding and Strategy to Improve and Expand Homeless Program.

Please, let me first say that on, 03.24.2009, I attended and put forward a recommendation to be included with the City Staff recommendation(s) that was voted on and passed that day, my recommendation was not discussed, but by my self at that session; I proffered my recommendation in both verbal and written form, to the City Council. By the way many others in that City Council meeting session also spoke on the same general topic as I put forward as did a lawyer that requested the members of the City Council address in particular that which I put forward to them, (I do not know this lawyer, he did this on his own), anyways there were no comments and or questions to me or any others from the City Council, that addressed the subject that I and others brought up, that being the need for, 'SAFE GROUND land areas'.

Note: I just prior to the above referenced City Council meeting of, 03.24.2009, briefly talked with Mayor Johnson and again after the meeting at which time he put forward that I contact you, this in regard again to the issue of, 'SAFE GROUND land areas', and so I contacted your office the following day, 03.25.2009, by phone, and left a voice mail message for you, and also included in the message I left you, I requested that you contact me at the phone number that I left included in the message. I have not heard back from you from my leaving that message last week, so that is why I am now writing this email to you, this day, 03.30.2009, (I understand phone messages sometimes may get misplaced).

Having dealt with issues of Governance over many years I would like to be a part of the discussions that are and will be taking place in regard to the, Funding and Strategy to Improve and Expand Homeless Program, and in particular, the need for, 'SAFE GROUND land areas', that have been articulated by myself and alluded to by the Governor of the State of California, Arnold Schwarzenegger, at the Press Conference on, 03.25.2009, that had himself and his partner in this with him, Sacramento City Mayor Kevin Johnson.

If you go to, <http://www.WilliamJackson.com>, I have there a copy of the video of that aforementioned, Press Conference.

As per my conversation with, Sacramento City Mayor Kevin Johnson, as I have stated above, so that I may more fully participate, contact me as to the issues of, Funding and Strategy to Improve and Expand Homeless Program, and in particular, 'SAFE GROUND land areas', this for hopefully inclusion of a City of Sacramento, County, or State Board, dealing with these issues, as well as perhaps a get together with Mayor Johnson and others that are trying to brain storm and figure out ways best to proceed ahead with the, Funding and Strategy to Improve and Expand Homeless Program, and in particular that is of interest to me and others, the issues of, 'SAFE GROUND land areas'.

Thank you so very much for your time and please convey this email and my sincere thanks to Mayor Johnson for his conversations with me on the, 03.24.2009, and his directing me to you.

Sincerely,

William Jackson
